

Ashish Kumar

MERN Stack Developer (React.js | Node.js | TypeScript)

Phone: +91-8954996918 | Email: ashishkushwaha6283@gmail.com | [LinkedIn](#) | [GitHub](#)

SUMMARY

Results-driven MERN Stack Developer with 3+ years of hands-on experience building scalable, secure, and high-performance web applications using MongoDB, Express.js, React.js, Node.js, and TypeScript. Proven expertise designing RESTful APIs, integrating payment gateways (Stripe, PayPal, Razorpay), building AI-assisted and real-time chat features, and implementing DRM-protected video streaming and identity (KYC) verification. Strong focus on clean code, performance optimization, and Agile collaboration.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript

Frontend: React.js, Next.js, Redux Toolkit, React Query (TanStack Query)

Backend: Node.js, Express.js

Databases: MongoDB

Bundlers: Vite

Tools & Platforms: REST APIs, Git, GitHub, Postman, Socket.IO, Firebase Cloud Messaging, Payment Gateways (Stripe, PayPal, Razorpay)

PROFESSIONAL EXPERIENCE

Ripenapps Technologies — Noida, India

MERN Stack Developer

March 2023 – Present

- Developed and maintained scalable frontend applications using React.js, focusing on reusable components, clean architecture, and responsive UI.
- Integrated third-party services such as VdoCipher (DRM video streaming) and payment gateways including Stripe and PayPal, collaborating closely with backend APIs.
- Enhanced application performance using lazy loading, code splitting, memoization, and optimized state management with Redux Toolkit and React Query.
- Worked with Node.js and Express.js to implement REST APIs, handle authentication, and support frontend requirements.
- Collaborated in Agile teams, actively participating in sprint planning, code reviews, and continuous product improvements.

PROJECTS

My Guest House

- Developed and maintained a scalable property booking platform using React.js.
- Built reusable and responsive UI components for property listings, property details, booking, user profiles, and host management.
- Integrated REST APIs for authentication, property management, bookings, and user operations.
- Implemented secure user verification using Persona for identity verification (KYC).
- Integrated Stripe and PayPal payment gateways to enable secure online payments and booking transactions.
- Optimized application performance using React Hooks, lazy loading, code splitting, and component memoization.
- Managed application state efficiently using React Hooks and Context API.
- Collaborated with backend developers to integrate APIs, resolve production issues, and deliver new features.
- Ensured cross-browser compatibility, responsive design, and an excellent user experience across desktop and mobile devices.
- Participated in code reviews, bug fixing, testing, and Agile development processes.

Fitzure

- Created a fitness service marketplace enabling trainers and influencers to manage services and schedules.
- Integrated secure payment processing using Razorpay.

Ebease

- Developed a feature-rich multi-vendor marketplace in React 19 & Vite, supporting negotiation and auction-based purchasing models alongside standard checkout.

- Integrated multiple payment gateways (Stripe, PayPal) and OAuth logins (Google, Apple, Facebook) with OTP and JWT authentication.
- Built an AI shopping assistant with real-time streaming responses and encrypted end-to-end messaging that renders live product cards in chat.
- Implemented real-time chat and notifications using Socket.IO and Firebase Cloud Messaging.
- Enhanced performance and UX with Redux Toolkit, React Query caching, skeleton loaders, progressive image loading, and infinite scroll.
- Delivered multi-language support using i18next with automatic language detection for global reach.

EDUCATION

Master of Computer Application (MCA)

Dewan VS Institute of Engineering and Technology, Meerut — CGPA: 7/10

Graduated: 2022
